

Remi Sainillabdeen

remis1889@gmail.com | <https://www.linkedin.com/in/remisainillabdeen/> | Kerala, India (Remote)

Professional Summary

Frontend-focused full stack developer with 8+ years of experience building interactive web applications using Angular and TypeScript. Skilled in designing accessible, scalable UI components and collaborating across remote, agile teams.

Actively experimenting with React and GraphQL to expand frontend expertise and stay aligned with modern product development workflows. Brings firsthand insight into the creator experience as an early-stage content creator. Passionate about thoughtful UX, behavior-aware design, and building tools that support clarity, sustainability, and impact.

Technical Skills

- Languages & Frameworks: TypeScript (5+ years), JavaScript (ES6+), HTML5, CSS3, SCSS/SASS, Angular, React (foundational), C#, .NET Core, Ruby on Rails, Python (working familiarity)
- APIs & Architecture: RESTful APIs, Microservices Architecture, GraphQL (actively exploring), JSON
- UI Libraries & Tools: Tailwind CSS, Bootstrap, Kendo UI, Syncfusion UI, PrimeNG, Reusable Component Design, Accessibility
- Databases: PostgreSQL, MySQL, MSSQL
- Development & Collaboration: Agile Methodologies, Code Reviews, Legacy Code Refactoring, Async Communication, Remote Collaboration, Scalable Frontend Architecture
- Version Control & DevOps: Git, GitHub, GitLab, Azure DevOps
- Project Management & Tracking: Jira, Azure Boards, Redmine

Professional Experience

Thomsun Infocare, Kerala, India (Remote)

March 2020 – Present

Associate Team Lead | Jan 2024 – Present

Senior Software Engineer | Mar 2021 – Dec 2023

Software Engineer | Mar 2020 – Mar 2021

- Led multiple small teams (3–5 members) in delivering client-facing web applications for US and Australian clients, balancing hands-on development with sprint planning, team communication, and stakeholder engagement.
- Architected scalable Angular and .NET Core projects, defining folder structures, reusable services, and technical documentation.
- Designed and maintained complex frontend and backend features, collaborated with QA and product stakeholders to resolve production issues.
- Mentored junior developers through code reviews, onboarding, and technical upskilling initiatives.
- Conducted Angular and UI/UX best practices sessions; designed and ran internship programs to support engineering hiring.
- Spearheaded utility service development to standardize functionality across modules.

- Contributed to the evaluation and integration of third-party UI libraries (Syncfusion, Kendo, PrimeNG) to enhance frontend consistency.
- Recognized with Star Employee of the Quarter (2021) and Spot Award (2022) for technical excellence and team contributions.

Selected client projects listed below in "Projects" section.

Viking Education Inc., San Francisco, US (Remote)

Jun 2016 – Feb 2018

Full Stack Developer & Teaching Assistant

- Developed and maintained curriculum modules covering full-stack JavaScript (MEAN stack) and Ruby on Rails, contributing to a high-quality, project-based learning experience for aspiring developers.
- Built and enhanced learning platform features using Ruby on Rails, MySQL, AngularJS, jQuery, HTML5, CSS3, SASS, and Bootstrap.
- Designed and graded weekly assessments, code challenges, and algorithm exercises to support student growth and mastery.
- Reviewed student pull requests and provided detailed feedback to ensure high-quality submissions.
- Mentored professionals transitioning into tech careers, guiding them through debugging challenges, Git workflows, and clean coding practices via async and 1:1 remote mentorship.

SOD Technologies, Kerala, India

Aug 2011 – Aug 2012

Web Developer

- Built and maintained websites for clients across travel, e-commerce, and digital marketing industries.
- Supported and updated existing applications based on evolving client requirements.
- Technologies used: PHP, MySQL, MSSQL, WordPress, JavaScript, HTML, CSS, jQuery, JSON, AJAX.
- Nominated for "Best Newcomer Award" within the first month of joining.
- Led a team of developers for two months as part of leadership training.

Projects

RethinkEd (Full Stack Developer)

Duration: 1.5 years

- Educational platform for K-12 students with behavioral and special needs (US-based client).
- Led full stack development across multiple modules, resolved key blockers and modernized legacy code.
- Tech: Angular, .NET Core, MSSQL, Kendo UI, PrimeNG, Bootstrap | Tools: Azure Boards, Azure Repos, Confluence

50 Degrees North – Nordic (Full Stack Developer)

Duration: 1 year

- Travel booking platform for agents (Australian client). Contributed to new features, bug fixes, and frontend optimization.
- Tech: Angular, .NET Core, PostgreSQL, AG Grid, Tailwind CSS | Tools: Jira, Azure Repos, Confluence

Ride-Booking Mobile App (Team Lead & Backend Developer)

Duration: 3 months

- Architected the backend and developed core APIs for booking, driver, and vehicle management workflows.
- Tech: .NET Core, PostgreSQL | Tools: Redmine, GitLab

Loyalty Program Mobile App (Team Lead & Full-Stack Developer)

Duration: 3 months

- Developed backend modules and Angular-based admin portal for rewards and campaign management.
- Successfully delivered within 3 months
- Tech: .NET Core, PostgreSQL, Angular | Tools: Redmine, GitLab

Pet Insurance Web Application (Frontend Developer)

Duration: 4 months

- Led Angular frontend development and integrated third-party APIs for insurance quote generation and claims workflow.
- Tech: Angular, Tailwind CSS | Tools: Jira, GitHub

Education

- Master of Technology in Computer Science & Engineering
Rajagiri School of Engineering and Technology, Kerala, India
2012 – 2014
- Bachelor of Technology in Information Technology
Cochin University of Science and Technology, Kerala, India
2007 – 2011

Certifications

IBM Full-Stack Software Developer Professional Certificate

Coursera

Completed 11 hands-on courses covering React, Node.js, Express, Git/GitHub, Python, Flask, Django, SQL, Docker, Kubernetes, and Microservices.
